DETAILED ACTION

Response to Amendment

1. The amendments to the claims, in the submission dated 11/2/10, are acknowledged and accepted.

Election/Restrictions

2. Claims 1-5, 9-12, 39, 48, 59 and 62-63 are allowable. The restriction requirement between Groups 1(a)-1(o), as set forth in the Office action mailed on 6/11/08, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 6-8, 13-38, 40-47, 49-58, 60-61 and 64-75, directed to Groups 1(b-o) are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 6-8, 13-38, 40-47, 49-58, 60-61 and 64-75 have been cancelled.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

3. Claims 1-5, 9-12, 39, 48, 59 and 62-63 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Applicant's arguments, see pages 6-19, filed 11/2/10, with respect to the rejection of the claims, have been fully considered and are persuasive, specifically with respect to the 35 U.S.C. 103 rejection of Schmitz et al. (6,491,324) in view of Menz et al. (6,876,472) as applied to independent claims 1, 9, 39 and 48.

Claims 1, and 39 are allowable over the prior art of record for at least the reason that even though the prior art discloses a security element with a diffraction structure, the prior art fails to teach or reasonably suggest that the recognizable information represented by the subareas is recognizable under the specific viewing conditions, under which the diffraction structure reconstructs a diffractive image. Claims 9 and 48 are allowable over the prior art of record for at least the reason that even though the prior art discloses a security element with a diffraction structure, the prior art fails to teach or reasonably suggest that the subareas do not take part in the reconstruction of the diffractive image, the recognizable information represented by the subareas is recognizable under viewing conditions differing from the conditions under which the diffraction structure reconstructs a diffractive image and wherein at least one of the subareas is produced during an embossing process with the embossing die already providing at least one subarea that is free from diffraction structures. Claims 2-5, 10-12, 59 and 62-63 are dependent on claims 1 and 9 and are allowable over the prior art of record for at least the same reasons as claims 1 and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
